DIAMOND : What is it ?

SEPAmail DIAMOND

is the interbank solution
put in place to ensure IBAN reliability.

The verification is directly done
into the bank accounts bases.

*(and not a contributory model based on payments historical of
companies)*

- ◆ To this day, more than **100 banks** are **members** of the **DIAMOND** Application (representing **95%** of bank accounts opened in France) with **5 millions** of flows exchanged.
- ◆ SEPAmail **DIAMOND** was built to be a global solution with an International cooperation at minimum at European level.
- ◆ SEPAmail **DIAMOND** is a Market solution created **by the bank for the bank** and their customers to provide an adapted answer about Fraud.
- ◆ The strength of this solution is its great adaptability :
 - All types of companies : from associations to corporates
 - All domains : sales, pre-sales, e/m-commerce, all suppliers (phone/water/energy/operators...)
 - All types of relationships : B2B, B2C, C2B, C2C.

DIAMOND : what is it ?

DIAMOND : Banks benefits

DIAMOND – Banks benefits

A high added-value banking service to due benefits of the bank customer

-

The first service adapted and marketable to ALL clients (all structures, from small to major corporate companies in all kinds of sectors - utilities, water & energy sector, retail...).

-

A solution to reduce SCT/ SDD rejections from the clients.

The first European banking Cooperation against fraud (IBAN / Identity reliability, Fake Standing Settlement Instruction...)

-

Reduction on Fraud amount (national and cross border).

-

The connection to the DIAMOND interbank service is quickly done and without needing any development whatever the format of the bank data bases.

DIAMOND : Clients benefits

Fight against fraud and reduces risks of error

- ◆ Errors in account, customer or supplier details.
- ◆ Risks of identity theft.
- ◆ Reduction on administration costs – Industrialized process related to manual checks.
- ◆ Reduction of undue charges.
- ◆ Reduction on Fraud amount (national and cross border).

DIAMOND – About Us

SEPAmail.eu

A Market Infrastructure managing a secured scheme with a broader Membership (more than 100 Banks).

A trust and security standard for digital information transfers.

A Certification Authority.

An European Actor - SEPAmail.eu represents the French banking community in both EPC Groups, the EIPP MSG (E-Invoice Presentment and Payment Multi Stakeholders Group) and the Request-To-Pay Multi Stakeholders Group and

StreamMind

DeepTech, allows companies to develop and deploy innovative applications without having to modify their IT architecture. When it was created over 12 years ago, this first French fintech was committed to the security and performance of payments. In particular, is the historic technical provider of the SEPAmail interbank infrastructure, a network both open to the Internet and highly secure, a world first. It was also a pioneer in the development of SEPAmail software applications for banks and companies, such as SEPAmail DIAMOND. StreamMind is the only Provider Referenced by SEPAmail.eu organization on the DIAMOND service.
